

AADHAR GAUR

Senior PHP Developer — Backend Specialist — Laravel — RESTful APIs

Jaipur, Rajasthan, India | +91 7737138843 | aadhar41@gmail.com

LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Results-driven Senior PHP Developer with 7+ years of progressive experience in backend development, specializing in Laravel and Yii frameworks. Proven expertise in designing and deploying scalable RESTful APIs, optimizing MySQL databases, and architecting high-performance web applications for enterprise-level clients. Strong track record of leading cross-functional teams, delivering mission-critical projects on schedule, and implementing industry best practices. Passionate about clean code, system design, and mentoring junior developers while staying current with emerging technologies.

CORE COMPETENCIES

- **Backend Development:** PHP, Laravel, Yii/Yii 2, CodeIgniter, Lumen, CakePHP, WordPress
- **Database Management:** MySQL, MongoDB, Query Optimization, Schema Design
- **API Development:** RESTful API Architecture, Third-party Integration, Payment Gateway Integration
- **Software Development:** SDLC, Agile Methodologies, System Design, Code Review, Debugging
- **Frontend Technologies:** HTML5, CSS3, JavaScript, jQuery, Bootstrap, Responsive Design
- **Tools & Platforms:** Git, CLI, Docker, Linux, Apache, Nginx
- **Best Practices:** Security Implementation, Performance Optimization, Technical Documentation
- **Leadership:** Team Mentoring, Project Management, Cross-functional Collaboration, Client Communication

PROFESSIONAL EXPERIENCE

Sr PHP Developer

RG InfoTech (Recursive Global InfoTech Pvt. Ltd.)

January 2024 - March 2025

Jaipur, Rajasthan, India

- Designed, developed, and maintained 6-7 scalable web applications using PHP and Laravel framework, ensuring 100% alignment with client requirements and technical specifications
- Led full-stack backend development efforts across multiple concurrent projects while maintaining strict code quality standards and documentation
- Engineered and deployed RESTful APIs for seamless third-party service and payment gateway integrations, enhancing system interoperability
- Conducted comprehensive code reviews and mentored junior developers on Laravel best practices, design patterns, and system architecture
- Implemented coding standards and best practices across team, resulting in improved code maintainability and reduced technical debt
- Identified and executed process improvements that increased team productivity by optimizing development workflows and CI/CD practices

Senior Software Engineer

SimplifyVMS

June 2022 - December 2023

Noida, Uttar Pradesh, India

- Served as key backend engineer for large-scale Vendor Management System (VMS) handling complex business logic and high transaction volumes
- Engineered optimized backend services emphasizing high performance, scalability, security, and fault tolerance for enterprise-level operations

- Architected database schemas and optimized queries to improve system performance by 30%, supporting millions of vendor records
- Collaborated with cross-functional teams (frontend, QA, DevOps) to integrate backend systems with user-facing applications and ensure seamless functionality
- Provided technical guidance, code reviews, and mentorship to development team members on architecture and implementation strategies
- Managed multiple projects simultaneously while maintaining strict deadlines and delivering consistently high-quality code
- Conducted comprehensive testing, debugging, and troubleshooting across production systems, ensuring 99.5% uptime

Software Engineer III

Matellio Inc.

November 2021 - June 2022

Jaipur, Rajasthan, India

- Functioned as key backend developer contributing to development and maintenance of mission-critical client projects using PHP and related technologies
- Developed and integrated RESTful APIs for seamless data exchange between client systems and third-party platforms
- Actively participated in code reviews, technical design discussions, and agile ceremonies while adhering to strict development methodologies
- Consistently met aggressive project deadlines through effective time management, prioritization, and proactive communication
- Analyzed complex technical requirements and proposed optimized solutions aligned with business objectives and technical constraints

Sr. Web Developer

Appinop Technologies

April 2021 - November 2021

Jaipur, Rajasthan, India

- Developed custom modules, features, and extensions for diverse web applications utilizing PHP frameworks across multiple industry verticals
- Contributed to database design and optimization initiatives resulting in improved application performance and reduced load times
- Enhanced website security by identifying and addressing vulnerabilities, implementing encryption protocols, and following secure coding practices
- Collaborated with project managers and clients to understand requirements and translate them into scalable technical solutions

PHP Developer

The NineHertz

May 2019 - November 2020

Jaipur, Rajasthan, India

- Developed responsive web applications primarily using Yii 1 framework with practical exposure to CakePHP, MongoDB, WordPress, and Lumen
- Contributed to both frontend and backend development across diverse projects, demonstrating full-stack capabilities
- Implemented responsive web design and optimization techniques, improving user experience metrics and page load performance
- Coded using HTML5, CSS3, JavaScript, jQuery, and Bootstrap to create dynamic, user-friendly interfaces

PHP Developer

Yellow Objects Solutions Pvt. Ltd.

February 2018 - March 2019

Jaipur, Rajasthan, India

- Developed and maintained multiple PHP-based web applications according to project requirements and client

specifications

- Optimized server-side code and database queries to enhance application performance and system efficiency
- Wrote clean, well-documented server-side and client-side code using PHP, HTML5, CSS3, and JavaScript

Associate Web Developer

Blueberry Softech Private Limited

September 2015 - September 2017

Ajmer, Rajasthan, India

- Developed web-based applications using PHP, MySQL, AJAX, and CodeIgniter framework
- Created intuitive user interfaces using HTML5, CSS3, and Bootstrap framework
- Assisted senior developers in development tasks, debugging, and testing, gaining experience across full development lifecycle
- Mentored junior developers, fostering collaborative learning environment and knowledge sharing within the development team

EDUCATION

Bachelor of Technology (B.Tech.), Information Technology

Rajasthan Technical University, Kota

2008 - 2012

Senior Secondary, Science and Mathematics

D.B.N. School, Ajmer

2006 - 2008

Secondary, Mathematics and Computer Science

St Paul's School, Ajmer

1993 - 2006

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Cisco Certified Network Associate (CCNA) - Routing and Switching
- British Council English Proficiency Certification
- Learn SQL Course - Data Retrieval and Database Optimization
- Learn Git Course - Version Control and Collaborative Development
- Learn the Command Line Course - Terminal Proficiency and Linux Administration

TECHNICAL SKILLS SUMMARY

- **Languages:** English (Fluent), Hindi (Native)
- **Programming Paradigms:** Object-Oriented Programming (OOP), Design Patterns, Functional Programming
- **Development Practices:** Test-Driven Development (TDD), Code Refactoring, Security Hardening
- **Cloud & DevOps:** Basic Docker, Server Management, CI/CD Concepts
